Hakodate Speciality at Donburi Yokocho

Surrounded by the ocean, Hakodate is located at the southern tip of Hokkaido. We can taste fresh seafood throughout the year such as Hairy Crab in spring, Squid in summer, Salmon and its Roe in fall, and Oyster in winter.

There are several markets in Hakodate. Here, Hakodate morning market with a long history has been popular among local people since the end of war. The market has always energy with strong voice from merchants. There is a "Donburi Yokocho" at a corner of Hakodate morning market. As Donburi Yokocho was renovated in 2005, it became a new sightseeing spot in Hakodate. Mercantile stores at Donburi Yokocho specialize in fresh seafood, ramen, and souvenir for dried seafood products. Let's enjoy Hakodate Speciality at Donburi Yokocho!
